SACRAMENTO'S RIVER DISTRICT: WHERE INDUSTRY MEETS INNOVATION AND GROWTH

The River District in downtown Sacramento has transformed from an isolated industrial powerhouse to a vibrant mixed-use community. Historically, the area was known for its warehouses and distribution centers that shipped agricultural goods nationwide. After World War II, the Dos Rios housing project introduced residential development. The district's revitalization began in the late 1990s, rebranded as The River District to highlight its prime location.

Today, the River District is experiencing significant growth with major devel-

opments like The Railyards, the new MLS stadium, Kaiser Permanente's medical center, and Mirasol Village. These projects are revitalizing the area, creating a dynamic mix of industrial, commercial, and residential spaces. The former Bercut-Richards Packing Company site is now Township 9, featuring Cannery Place Apartments and Township 9 Park, with more developments on the horizon.

Leasing an industrial space in the River District offers a unique opportunity to be part of this thriving community. Its proximity to downtown Sacramento and

major highways makes it an ideal hub for various industries. The district's ongoing enhancements to infrastructure and community facilities further solidify its position as a prominent business and residential hub in Sacramento. From Trivia Night at Touchstone Brewing Co. to mixers at the SMUD Museum of Science and Curiosity and Taco Tuesday at the Mirasol Village Community Garden, the River District is a bustling area with plenty to offer.

ALCHEMIST PUBLIC MARKET

Alchemist Community Development Corporation (Alchemist CDC) connects communities to land, food and opportunities toward a vision in which all Sacramento neighborhoods are vibrant, equitable, healthy and diverse.

Alchemist Public Market will offer the amenities needed to enable under-served entrepreneurs to start new food businesses, provide workforce de-

velopment for workers with high barriers to employment, create an attractive and energetic community gathering place, and offer low-income neighbors access to quality food from local producers. When constructed on the .82 acres owned by Alchemist CDC in Sacramento's River District, APM will be an all-electric campus including a shared-use incubator kitchen, a social

enterprise café, a retail store featuring products from small Sacramento makers and grocery staples, and a co-working office. It will also be home to 8 small incubator restaurants with a shared outdoor food court, ample shade structures, a weekly farmers' market, an inclusive playground, and more. Community Space: The River District is undergoing a major transition from an industrial hub to a corridor full of housing and commercial destinations. Alchemist Public Market will serve these new residents as a hub and heart for the community. The project will include amenities such as an outdoor food court, a vibrant weekly farmers' market, retail stores, co-working office spaces, a cafe, a children's play area and much more! (Source: <https://alchemistpublicmarket.com/community-space>)

Inclusive Economic Development: Alchemist Public Market will provide under-resourced food entrepreneurs with affordable access to a shared-use commercial kitchen, empowering them to start commercial production and grow their businesses. The on-site retail shop will be dedicated to Sacramento-made products and will provide retail market opportunities to many local makers. (Source: <https://alchemistpublicmarket.com/inclusive-economic-development>)

Responsible Development: Alchemist Public Market (APM) will be an all-electric site, built without natural gas utilities. Alchemist Public Market is designed to promote both active and public transit access, such as access to abundant bicycle, electric scooter and skateboard parking and 4 light rail stations, and much more. The food business incubator facilities targets traditionally under-served populations. Additionally, the APM is pleased to be located near a large supply of affordable housing to serve the low-income households. (Source: <https://alchemistpublicmarket.com/responsible-development>)
